

IETF LLC

Board Memorandum

Date: November 7, 2019

To: IETF Community - Stored on IETF Website with Conflict of Interest Forms

RE: Redaction of Conflicts of Interest Form

This memorandum is intended as a notation of the Board when filing our first Conflict of Interest ("Col") forms. The Board understands that some in the IETF community would prefer all IETF LLC Board Director Col forms be released on an unredacted basis. However, certain Board Directors may be bound by Non-Disclosure Agreements or other confidentiality agreements that do not permit public disclosure of certain information.

The Board reviewed all unredacted Col forms submitted by current IETF LLC Board Directors on November 7, 2019. One Board Director, Sean Turner, informed the Board of a confidentiality concern. The Board confidentially reviewed this, agreed to file a public Col form for Sean Turner that redacts that information, and will continue to monitor for actual or perceived conflicts of interest. All other Col forms submitted by current Board Directors will be published unredacted.
